Hey,

we're headed for the future.

Give us some room;

we're gonna build a new world.
Say, we're headed for the future.
Yeah, we're headed for a new place.

Give us some time.
A step at a time.

Yeah, we're gonna make it work right.
Yeah, we're gonna take a long ride.

C7

Yeah, we're gonna build a new dream.
Time don't wait around forever.
We've got to make it stand tall. It's got to last a long time.
We've got to do it right now. Let's do it all together.

Lean on me, and I'm gonna lean on you.

We're headed for the future and the future's
now. Show you how.
Lean on me, 'cause I'm gonna lean on you.
We're headed for the future, come on.
Lean on me, and I'm gonna lean on you.
We're headed for the
future, and the future's ours.

Come on, come on, come on.

come on, come on, come on. Yeah!
